Dear Mr. Wu:

We recently returned from your "China's Best Treasures" tour and wanted to personally thank you for a trip we will always remember. We are impressed with China Spree and the dedication and hard work that has obviously been put into making it the company it is. We recognize that China Spree's excellence is due in large part to you and the excellent team you have put together. It is obvious that you have put great care and planning into every detail.

There are many people who made our experience memorable, but we would like to mention our National Guide Hu Xin (Kevin) in particular. You can be assured that you have an additional treasure with him as an employee. Kevin was patient, kind, funny, open, knowledgeable, and attentive to our every need. When one member of our group had his camera stop working, Kevin loaned him his camera and located a store to purchase an additional SD card. Our group was made up of six teachers. When somebody mentioned how nice it would be to have a detailed map of China, Kevin bought maps for us. There was no problem he could not solve or request that was not immediately answered. He is the employee that we all wish worked for us. On parting, we said goodbye to our tour guide but also to someone who had become a friend. He was a key to the success and enjoyment of our trip. We had no worries for two weeks.

Thank you once again for a first rate experience in every sense of the word. You have created a great company which we will enthusiastically recommend to our friends.

Sincerely yours,

A handwritten signature in blue ink that reads "Wayne Edney" on the top line and "Karen Edney" on the bottom line.
